Custom Spring

Founded in 2015, Custom Spring specializes in custom fabrication of spring and tubing products with high tensile corrosion resistant alloys.

If it's possible, our team can figure it out. We have an open policy workplace. We take pride in our commitment to meet an on-time and defect-free product for all our customers in a safely manner.

Custom spring has engineering experience in the fields of Oil & Gas, Aerospace and Medical. Our motto here is Quality First. Engineered To Last. Continuous improvement, hard work and ethics is important to us. We expect our work done once and done right here at our facility in Spring Texas.

J&J Spring

Capabilities

Wire Forming 0.014" - 0.500"
Diameter

Metal Forming 0.008" - 0.250"
Thickness

Products

Compression
Extension
Torsion
Drag Spring
Clips
Latches
Flat Springs

Material Knowledge

Types

Inconel X750
Inconel 600 Series
Hastelloy C-276
Elgiloy
MP35N
17-7
Chrom Silicon
Music Wire
300 Series Stainless
Monel
Oil Tempered

Forms

Square
Tubing
Round
Wire
Bar
Flat Stock
Sheet

Processes

Coatings
Shot Peen
NDE
Black Oxide
Passivate
Welding
Mag Partical Inspect

Custom Spring

Capabilities

Wire Forming 0.008" - 0.625"
Diameter

Metal Forming 0.006" - 0.062"
Thickness

Products

Torsion
Compression
Belleville
Control Lines
Equalizer
Nitrogen Coil
Wireform
